

"Change is the only constant." – Heraclitus

This quarter, The Miles Foundation embraces change as an essential catalyst to growth and innovation. The opportunity to continually learn and evolve as individuals, as a foundation, and as a community is a gift for which we are grateful. Today, we wish our colleague and friend, Jay McCall, the very best in the next phase of his professional journey, and warmly welcome Kate Wisniewski as the newest member of our team. While change is inevitable, the relationships we build are enduring. We look forward to the next chapter of our shared progress, collaboration, and partnership.
